

STATEMENT OF PURPOSE

RS22782

This legislation would require that \$5.00 of each fee paid for a Class D driver's training permit be paid to either the driver training account, if the person is taking driver's training from a public school; or to the Bureau of Occupational Licenses for deposit in the State Treasury to the credit of the Occupational Licenses Fund, if the person is taking driver's training from a private driver's training program. Currently, this \$5.00 is paid to the driver training account regardless of whether the student is enrolled in driver's training through a public school or through a private driving school.

FISCAL NOTE

It is estimated that approximately \$25,000 per year would be credited to the Bureau of Occupational Licenses fund rather than to the driver training account.
